

Topic

These are the next pieces of information I would like you to add to your project about a country.

Remember you can record all the information you find out in any way you choose:-

For example:-

A poster, a powerpoint, an information booklet, pictures with labels or if you have the technology you could make a video!

- What sort of food is there in your country?
- Do they eat anything special or anything that is different to you? Is there a national dish (a meal that country is famous for, many people say England is famous for fish and chips, roast dinners and a cooked breakfast!)
- Have you ever cooked or tried any food that your country is known for? If you can cook or try any foods from your country it would be lovely to see photos of this!
- Is your country famous for any sports? Do any famous sports people come from your country?
